Daylight complete system for bright winter garden atmosphere in flat roof buildings – generous sizes for generous light inlet

**JET-MODUGLAS® overview**

- Attractive monopitch roof optic in multiple-system glazing
- Applicable as fix or ventilated flat roof daylight system
- Ventilated by profile integrated chain thrust motors with 130 mm lifting height
- Aluminium surfaces coated in white RAL 9016 or optionally RAL-coloured according your choice on request

**Glazing variants:**

Heat protection or sun and heat protection insulation glazing
- as standard with “warm edge”

**Double-insulation glazing:**

Glass quality: outside ESG or Float/inside LSG

- Heat protection glazing JET-WSG 76/54
  (U<sub>-value</sub> = 1.1 W/m²K acc. DIN 673)
  light transmission: T<sub>L</sub> approx. 76 %
  energy transmission: g-value approx. 54 %

- Sun protection glazing JET-SSG 69/41
  (U<sub>-value</sub> = 1.0 W/m²K acc. DIN 69/41)
  light transmission: T<sub>L</sub> approx. 69 %
  energy transmission: g-value approx. 41 %

- Sound insulation: R<sub>w</sub> = approx. 34 dB

**Product benefits**

**Top-quality design product for residential, office and administration buildings because of:**

- Heat insulated monopitch roof construction with 10° inclination (for good self-cleaning)
- Thermal separated aluminium design profiles
- Sound-absorbing heat protection glazing
- Heat insulated upstand
- Dimensioning for application according to EnEV 2014 (2016)

**Natural room illumination through:**

- Optimal light efficiency
- High quality design for generous winter garden atmosphere
- Combination of light, fresh air, look-out and comfort
- Optional ventilation and outer shadowing system, selectively with radio remote control
- Connection to JET-SMARTCONTROL for more comfort
- Fast fitting by the roofer is possible, because the JET-MODUGLAS® will be delivered prefabricated on JET-upstands and packed on a transportable pallet

**NOTE:**

Indicated values are related to the glazing. The indicated function values for the glass products and the photometric data correspond to the relevant and actual testing standards with the requested and described testing measurements. Variant sizes and combinations may effect changing of the results.
Comfortable upgrade for rooms and buildings: effectively highlighting of light technical demanding rooms with JET-MODUGLAS®
