

## JET-GRP UPSTAND WITH TRP-SLANTED SIDES

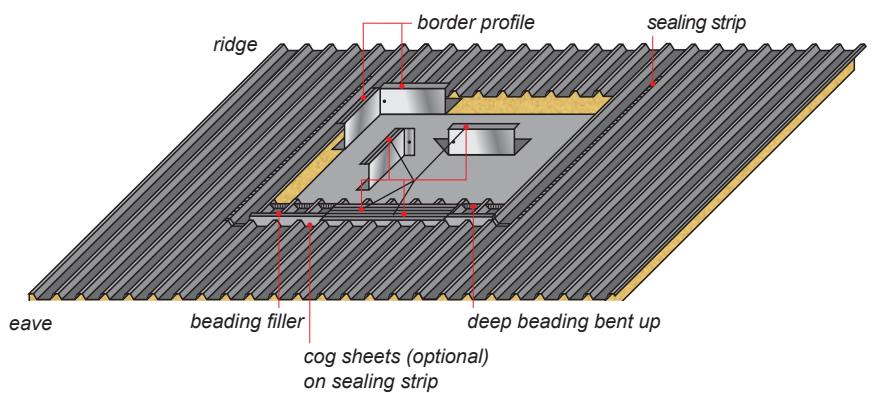

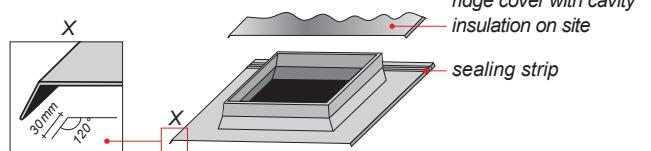

For the assembling on all profiled roof surfaces (double shelled and thermo/ISO roofs), corrugated profile roofs and standing seam systems

JET-GRP upstand with TRP-slanted sides

- ▷ surfaces GRP, white pigmentation, rough exterior, smooth interior
- ▷ standard coating in RAL 9010 or another RAL-colour of your choice
- ▷ reveal with laminated PUR heat insulation, U-value: 0,94 W/m<sup>2</sup>K
- ▷ variable flange width, suitable to distance of the beadings in the width
- ▷ upper and lower flange width standard 300 mm each or according to your request
- ▷ revolving slanted sides possible

**NOTE:**

The JET-scope of delivery consists only of the GRP upstand with TRP-slanted sides. The IFBS and manufacturer installation guidelines must be observed.

*Application sample:*

*JET-GRP upstand with TRP-slanted sides in RAK geometry, assembling on ISO/thermo roof*

1) special design for highly effective smoke exhaust (SHEV)

- = available
- = not available

min. covering-over dimension      width: order size + 310 for AK  
                                           width: order size + 250 for RAK  
 max. covering-over dimension    width: order size + dimension till the exterior edge of the next high beading + 10 mm tolerance

#### NOTE:

In case of order information regarding the covering-over dimension and the position of assembling are needed.
